Owners looking to maintain or restore one of these classic bikes should have a Honda CB750 workshop manual on hand. The CB750 was powered by an transverse inline four cylinder engine featuring an overhead camshaft when Honda introduced the bike to the U.S. The Honda CB750 had a top speed of 120 miles per hour. The CB750 was the first production motorcycle to feature a transverse engine, front disc brake, and many other features that today are considered standard.
