Law, Patents And Technical Standards, David Teylas presents a systematic analysis of how competition law ensures that holders of technical standards (essential patents or SEPs) do not unduly exploit their advantage. The waging of “patent wars” is among the prominent features of today’s litigation landscape, with a single SEP being sufficient to

Where To Download The Interface Between Competition

Due to the growing interface between business and sports, the aspect of competition law heavily comes into play. This has resulted in a growing need to balance the two entities or organizations as under competition law to include the sharing and balance of income, a ceiling on spending amounts, drafts and of course, non-tampering provisions.
